WORK EXPERIENCE

SHIFT Interactive March 2014–current

// UI&UX Design and Front-end Development

Took role of building front-end functionalities and also designing User experience using modern UI tools (Figma, Sketch, Photoshop). Was part of communication with the clients and setting projects' goals. Helping with brand design and creative direction. Constantly learning by attending to local marketing events in the Midwest region, networking and building relationships with local businesses. Numerous local design awards for app and web design.

Flying Hippo Web Technologies July 2010–March 2014

// Front-End Development and Web Design

Major responsibility was to design and lay out the websites based on creative brief and the sitemap. Have lots of experience with making custom designs in Photoshop and also coding the sites using Wordpress platform with HTML, PHP, CSS, and jQuery. Developed strong skills with responsive and fluid designs. Use tools like SASS and CSS3 for efficient building of optimized sites for desktop and mobile browsers.

Saturday Mfg. February 2010–April 2010

// Web Design, Illustrations, Graphic Design

Graphic design and digital illustrations. Worked as a graphic design intern. Learned the process of print production, digital illustration, and copyrighting. Discovered the process of brand development and marketing. Gained a great experience meeting other design companies and printers, developed a good networking relationship with the company's owner and writers.
